

What is claimed is:

1. A system for encrypting data files, comprising:
a computer;
a storage device connected to said computer;
an application loaded on said computer for storing and retrieving data
5 files on said storage device; and
a program executing on said computer, independently of said
application, for intercepting said data files to be stored by the application on
said storage device to encrypt them before they are stored.
2. The system of claim 1, wherein said program intercepts data files to be
retrieved by said application from said storage device to decrypt them.
3. The system of claim 2, wherein said program decrypts said data files
retrieved by said application in memory.
- c4. The system of claim 3, wherein said program does not store
unencrypted versions of the encrypted data files on said storage device.
5. The system of claim 1, wherein said program encrypts said data files
automatically without user intervention.
6. The system of claim 1, wherein said program decrypts said data files
automatically without user intervention.
7. The system of claim 1, wherein said program includes an encrypt key
and an application identifier.
8. The system of claim 7, wherein said encrypt key and application
identifier are stored together in an encrypted file.

al cont

[illegible]

-

an application loaded on said computer for storing and retrieving data
5 files on said first storage device;
a second storage device accessible by said computer; and
a program executing on said computer, independently of said
application, for copying to said second storage device said data files stored by
said application on said first storage device.

19. The system of claim 18, wherein said second storage device is located
remotely from said first storage device.

20. The system of claim 18, wherein said copying is for the purposes of
backing up said data files.

21. The system of claim 18, wherein said copying is for the purposes of
replicating said data files.

22. The system of claim 18, wherein said program intercepts said data files
to be copied to said second storage device and encrypts them before they are
copied.

23. The system of claim 22, wherein said program intercepts said data files
to be retrieved by said application from said second storage device to decrypt
them.

24. The system of claim 23, wherein said program decrypts said data files
retrieved by said application in memory.

25. A method for encrypting data files comprising the steps of:
commanding an application to store a data file on a storage device
connected to a computer;
intercepting said data file from the application before said data file is
5 stored on said storage device;

12345678910111213141516171819202122232425262728293031323334353637383940414243444546474849505152535455565758596061626364656667686970717273747576777879808182838485868788899091929394959697989910010110210310410510610710810911011111211311411511611711811912012112212312412512612712812913013113213313413513613713813914014114214314414514614714814915015115215315415515615715815916016116216316416516616716816917017117217317417517617717817918018118218318418518618718818919019119219319419519619719819920020120220320420520620720820921021121221321421521621721821922022122222322422522622722822923023123223323423523623723823924024124224324424524624724824925025125225325425525625725825926026126226326426526626726826927027127227327427527627727827928028128228328428528628728828929029129229329429529629729829930030130230330430530630730830931031131231331431531631731831932032132232332432532632732832933033133233333433533633733833934034134234334434534634734834935035135235335435535635735835936036136236336436536636736836937037137237337437537637737837938038138238338438538638738838939039139239339439539639739839940040140240340440540640740840941041141241341441541641741841942042142242342442542642742842943043143243343443543643743843944044144244344444544644744844945045145245345445545645745845946046146246346446546646746846947047147247347447547647747847948048148248348448548648748848949049149249349449549649749849950050150250350450550650750850951051151251351451551651751851952052152252352452552652752852953053153253353453553653753853954054154254354454554654754854955055155255355455555655755855956056156256356456556656756856957057157257357457557657757857958058158258358458558658758858959059159259359459559659759859960060160260360460560660760860961061161261361461561661761861962062162262362462562662762862963063163263363463563663763863964064164264364464564664764864965065165265365465565665765865966066166266366466566666766866967067167267367467567667767867968068168268368468568668768868969069169269369469569669769869970070170270370470570670770870971071171271371471571671771871972072172272372472572672772872973073173273373473573673773873974074174274374474574674774874975075175275375475575675775875976076176276376476576676776876977077177277377477577677777877978078178278378478578678778878979079179279379479579679779879980080180280380480580680780880981081181281381481581681781881982082182282382482582682782882983083183283383483583683783883984084184284384484584684784884985085185285385485585685785885986086186286386486586686786886987087187287387487587687787887988088188288388488588688788888989089189289389489589689789889990090190290390490590690790890991091191291391491591691791891992092192292392492592692792892993093193293393493593693793893994094194294394494594694794894995095195295395495595695795895996096196296396496596696796896997097197297397497597697797897998098198298398498598698798898999099199299399499599699799899910001001100210031004100510061007100810091010101110121013101410151016101710181019102010211022102310241025102610271028102910301031103210331034103510361037103810391040104110421043104410451046104710481049105010511052105310541055105610571058105910601061106210631064106510661067106810691070107110721073107410751076107710781079108010811082108310841085108610871088108910901091109210931094109510961097109810991100110111021103110411051106110711081109111011111112111311141115111611171118111911201121112211231124112511261127112811291130113111321133113411351136113711381139114011411142114311441145114611471148114911501151115211531154115511561157115811591160116111621163116411651166116711681169117011711172117311741175117611771178117911801181118211831184118511861187118811891190119111921193119411951196119711981199120012011202120312041205120612071208120912101211121212131214121512161217121812191220122112221223122412251226122712281229123012311232123312341235123612371238123912401241124212431244124512461247124812491250125112521253125412551256125712581259126012611262126312641265126612671268126912701271127212731274127512761277127812791280128112821283128412851286128712881289129012911292129312941295129612971298129913

26. The method of claim 25, further comprising the additional step of encrypting said data file automatically without user intervention.
27. The method of claim 25, further comprising the additional step of intercepting said data file to be retrieved from said second storage device.
28. The method of claim 27, further comprising the additional step of decrypting said data file in memory.
29. A method for encrypting a file comprising the steps of:
generating a file based on specified parameters;
varying a size of the file;
selecting a passkey component from a list of possible passkey components;
combining the file size and the passkey component to form a passkey;
and
using the passkey to encrypt the file.
30. The method of claim 29, further comprising the additional step of noting a date the file was generated.
31. The method of claim 29, further comprising the additional step of noting a time the file was generated.
32. A method for copying data files comprising the steps of:
storing a data file on a first storage device connected to a computer;
copying said data file on a second storage device accessible to said computer;

~~intercepting said data file from the application before said data file is stored on said second storage device;~~

determining whether said data file is to be encrypted;

encrypting said data file; and

storing said data ~~file~~ on said second storage device.

33. The method of claim 32, further comprising the additional step of copying said data file for the purposes of backing up said data file.

34. The method of claim 32, further comprising the additional step of copying said data file for the purposes of replicating said data file.
